# Tógáil Cruthaíoch: Abstract Construction

Feabhra 2008

The exhibition was Sculptures by John Mc Hugh from Achill

Our wonderful teachers there were called Catherine, Marianne and Denise

John Mc Hugh used materials such as rubble, wood, steel and rusted metal.

He would have got the materials from places like a bog, a deserted house or maybe a broken pier

We talked about texture. We had a box and felt the textures of things that were inside

We made sculptures out of cloth, fizzy drink lids, toilet paper tubes, plastic hats, coloured string and wood pieces from the willow tree
